

## ***Your single source for Transportation Excellence!***

***Our business is moving freight. Our mission is total customer satisfaction***

Our vision is to continue to provide the highest standard in the FTL, LTL and expedited service as measured by our customers in order to become their SINGLE SOURCE FOR TRANSPORTATION EXCELLENCE. GTX Logistics' vision will be met by the following:

- Through team commitment with our customers, staff and carriers.
- Providing fast, efficient service at a competitive rate.
- Making customer service and satisfaction our number one priority.

What is a Freight Broker?

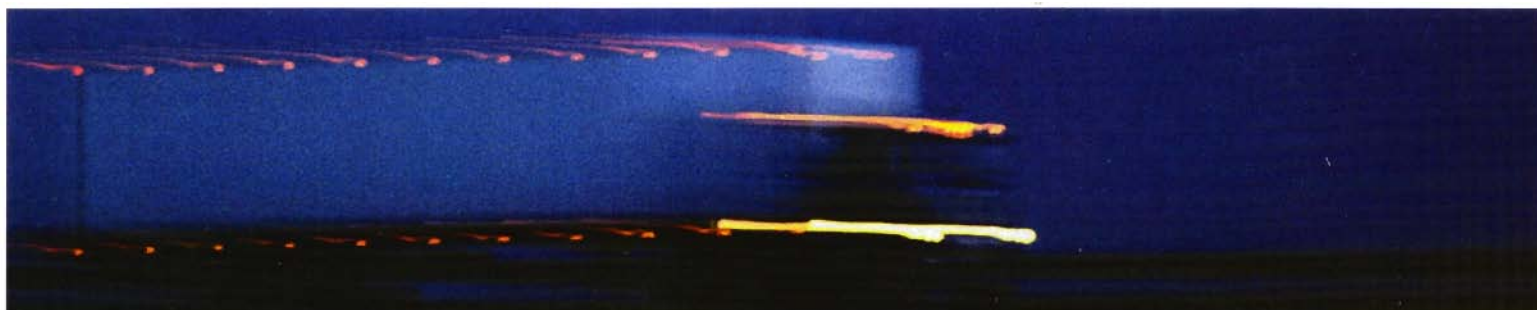

Very simply, a freight broker is a company that brings together a shipper that needs to transport goods and an authorized carrier that wants to provide the service. Brokers provide an important service to both carriers and shippers. In fact, some companies use brokers as their traffic department, allowing the broker to coordinate all their shipping needs.

GTX Logistics Inc is a transportation management company providing the one stop solution for all your transportation needs. We work with our clients to offer full transportation service with increased productivity.

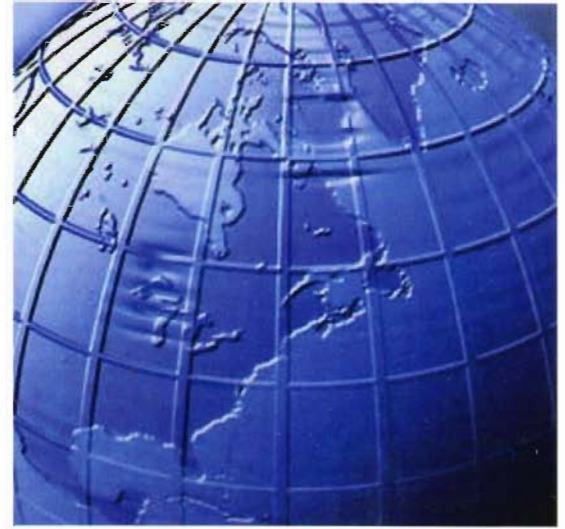

GTX Logistics specializes in designing and managing cost effective solutions for manufactures, distributors and shippers with unique logistical needs.

Reliability and accuracy are achieved across our network through personal understanding of each customers needs. GTX is a smarter way to get the solutions and service you seek.

Call us. We'll show you how a true logistics partnership can work for you.

*Why call different carriers for different shipments? Call GTX Logistics Inc instead. We will match your shipments with the best mode.*
